

JANUARY 8TH & 9TH: BEYOND THE DUST

A Different Narrative of What Happened in Mashhad

In the noise of the news, the truth is sometimes lost. Let's take a closer look at the events in front of the Mashhad Governor's Office and police stations.

DESTRUCTION VS. TOLERANCE

Eyewitnesses confirm that despite hours of destructive actions by a few around sensitive centers, the security system sought tolerance and restraint.

No shots were fired at the people or the rioters.

The goal was solely to separate the protesting public from the agents of destruction.

NEUTRALIZING THE “MARTYR-MAKING” PROJECT

- The continuous surveillance and mastery of security agencies thwarted this plot as much as possible.
- The specific, uncovered demand of US and Israeli intelligence elements was clear: **Leaving an abundance of dead bodies on the hands of the system.**

PRICING THE DEAD: THE RUMOR MILL

Rumors spread rapidly regarding payments for the delivery of bodies.
These rumors had only one goal: Generating Hatred.

THE 'IRAN INTERNATIONAL' TRAP

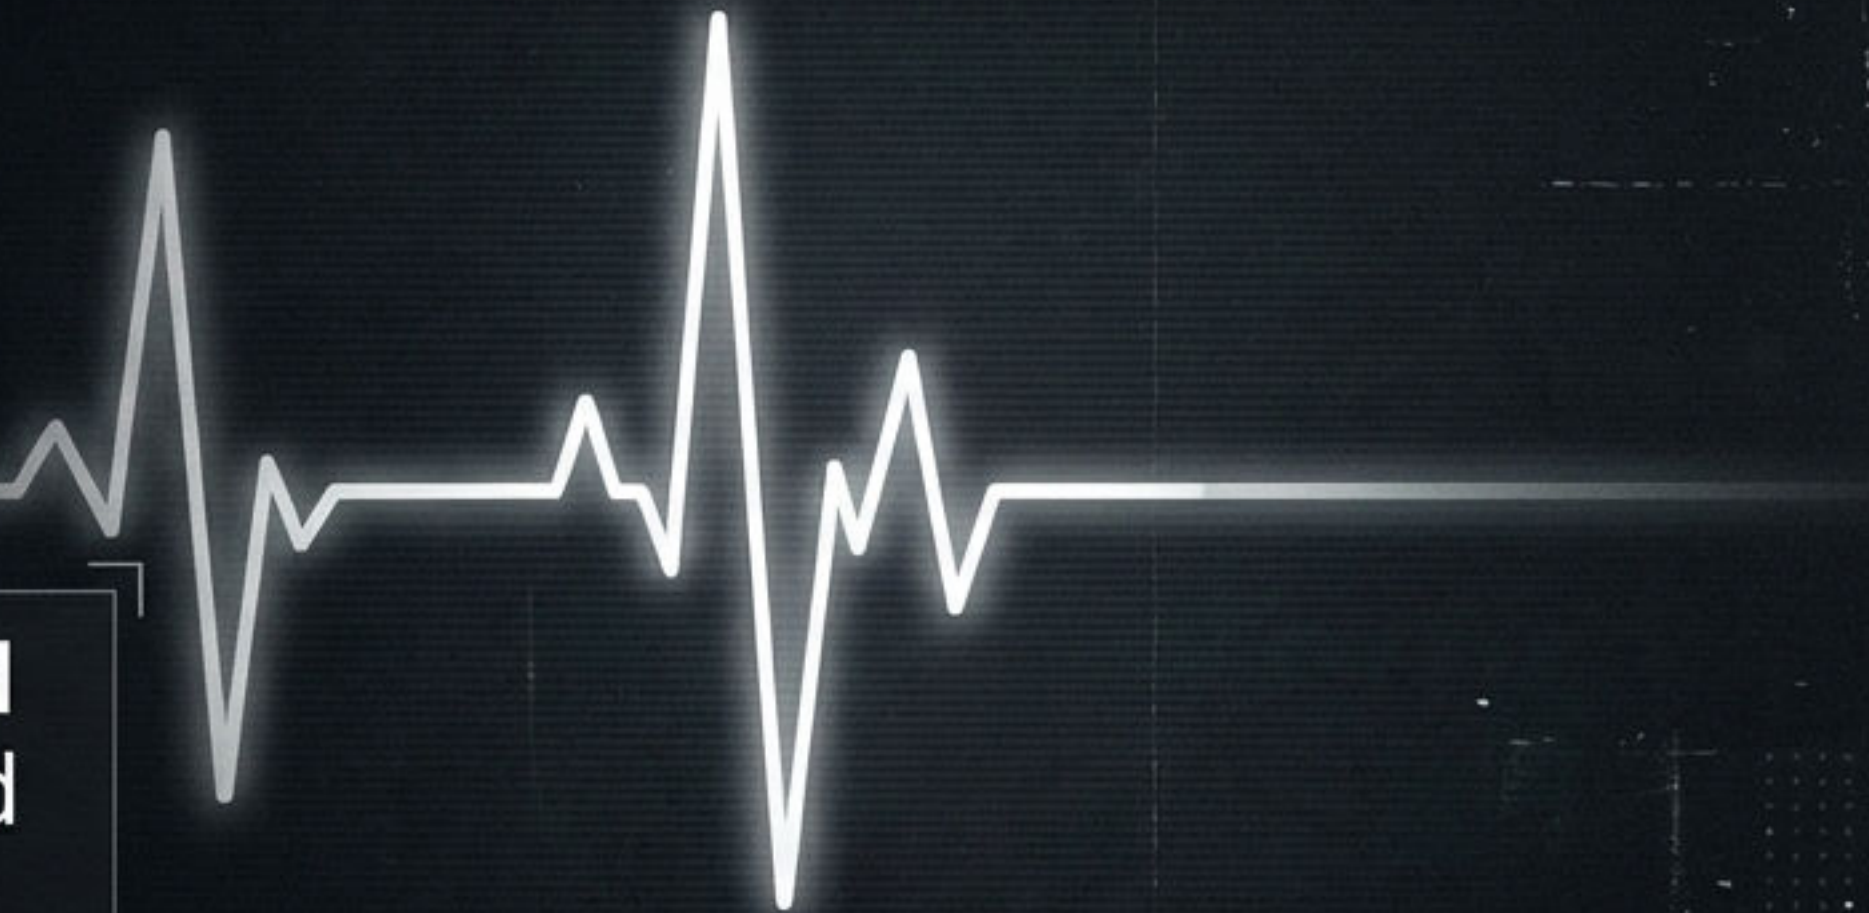

The Lie: "Do not go to the hospital; you will be arrested."

The Reality: While free treatment for the injured was actively on the government's agenda, this terrorist media directive frightened people away from receiving life-saving medical help.

MEDICAL EXAMINER'S CONCLUSION

The bitter truth for several individuals:
The severity of their initial injuries did
not cause their deaths.

**Rather, delayed visits to medical
centers—driven by media-induced
fear—resulted in death due to
infection and bleeding.**

BBC CONTRADICTIONS

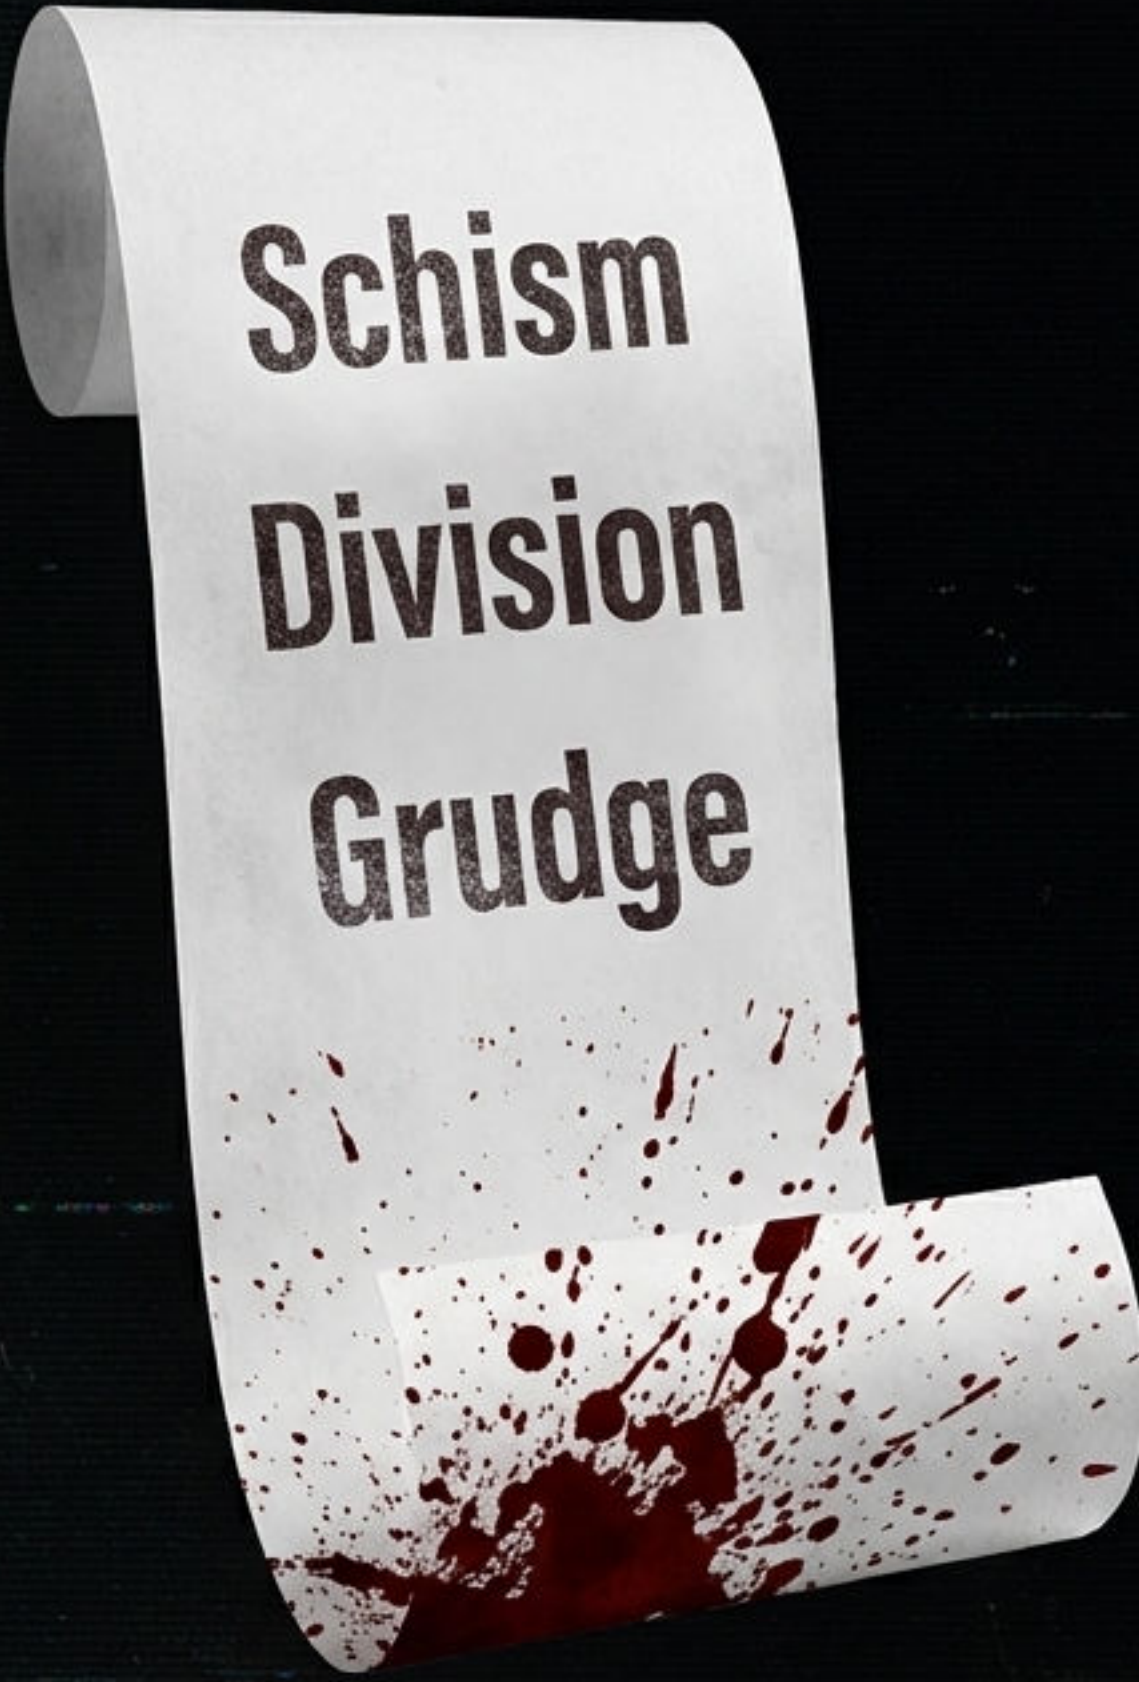

THE CLAIM

BBC claimed that holding mourning ceremonies for the deceased was strictly prohibited.

THE BROADCAST

Yet, BBC Persian itself broadcasted numerous videos of those exact ceremonies—even unconventional ones—held by the families.

The contradiction reveals the agenda.

INVOICING THE CRIME

The planners of January 8th and 9th, 2026 (18 & 19 Dey 1404) sought to fracture the nation. They wanted to manufacture a large number of casualties and bill the political cost directly to Iran's system.

TERROR IN THE HEART OF CHAOS

Hostile elements tried to drag everyone into blood and dirt: ordinary citizens, security officers, and even those influenced by the media who intended to take over sensitive centers.

Even one casualty is too many, but the enemy was seeking a massacre.

THE PERPETUAL POLICY OF COLONIALISM

DIVIDE AND RULE.

This is an ancient Western formula updated for the digital age. The goal remains identical: creating political, religious, and ethnic divisions to paralyze independent, popular systems from within.

FROM AUGUST 1953 TO JANUARY 2026

1953 (Oil Nationalization)

It was a deliberate "design," exactly like the coup against the national oil movement.

2026 (Recent Events)

The recent events were not a spontaneous coincidence.

For 47 years, **America, Europe, and Israel** have been designing **war, coups, and terror** against the Iranian people.

**Because an independent nation
will never again be a colony.**

DEFENDING THE FOUNDATION

INDEPENDENCE

FREEDOM

REPUBLIC

ISLAM

They are fundamentally opposed to our independence, our freedom, our republic, and our Islam. They do not want an independent nation to have a single moment of peace.

THE ANTIDOTE: UNITY AND VIGILANCE

The only way to overcome this design is to replace hatred with friendship and empathy.

We must recognize that the enemy is the true obstacle to the progress of any human being who desires to be free.
