

Shadows of Ajax: Re-reading an Energy Coup

From the August 1953 Coup (28 Mordad 1332) to the Events of January 2026 (Dey 1404)

Beyond a Street Riot

The events of January 2026 (18 & 19 Dey 1404) were not a random accident. This was a “coup against the people” and the Islamic Republic system.

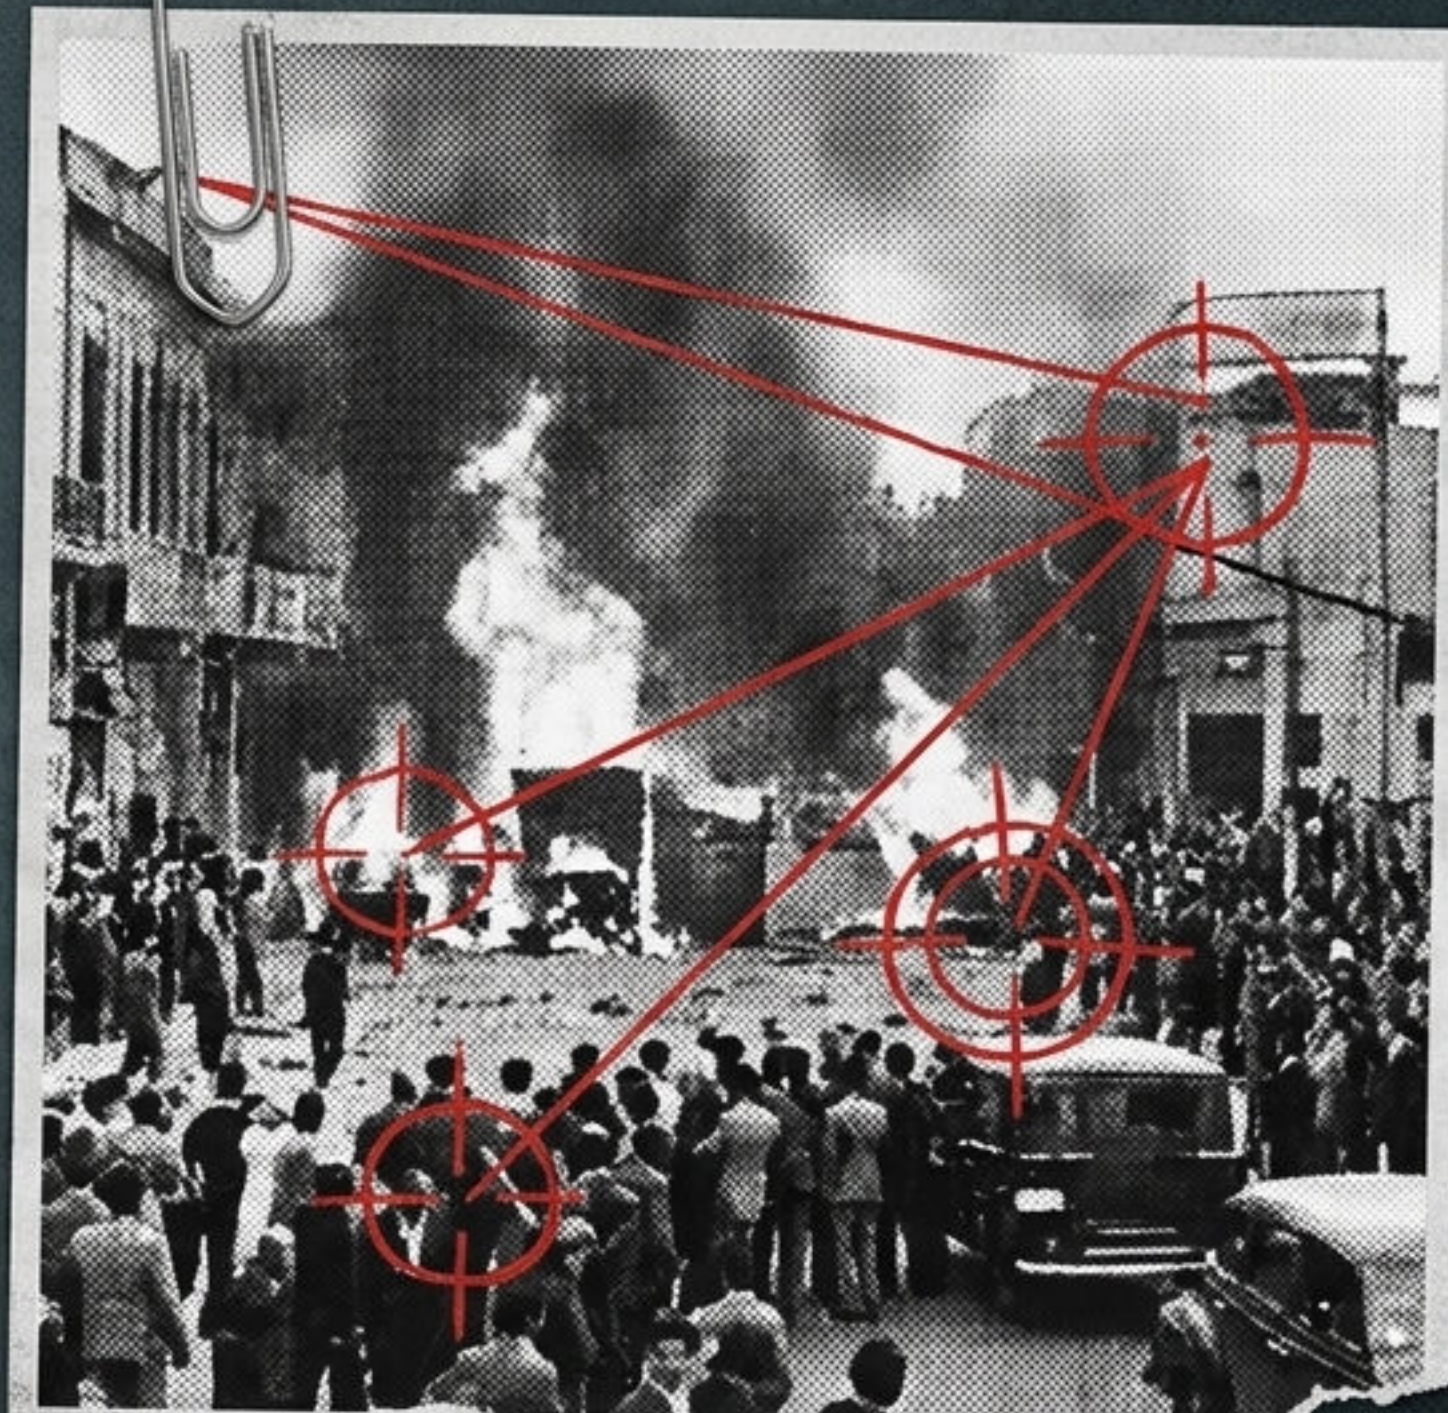

Precise assessments show that these events are part of a larger puzzle aimed at total domination over energy resources.

ENERGY COUP

**OPERATION
AJAX**

Historical Pattern: The World's First Energy Coup

- In August 1953 (Mordad 1332), Iran witnessed the first instance of this strategy. Operation Ajax was not just a political change; it was a complex design by intelligence services (CIA and MI6) to regain control over Iran's oil and prevent the region's economic independence.

HISTORY REPEATING: THE 1404 PLAN

18 & 19 Dey 1404

Chaos and Riot
(Preparation phase)

24 Dey 1404

MILITARY ATTACK

Exactly mirroring the historical pattern, a military attack was designed for 24 Dey 1404. The events of 18 and 19 Dey were merely a prelude to reduce the system's "social capital" and prepare the ground for military action.

INSATIABLE APPETITE FOR ENERGY

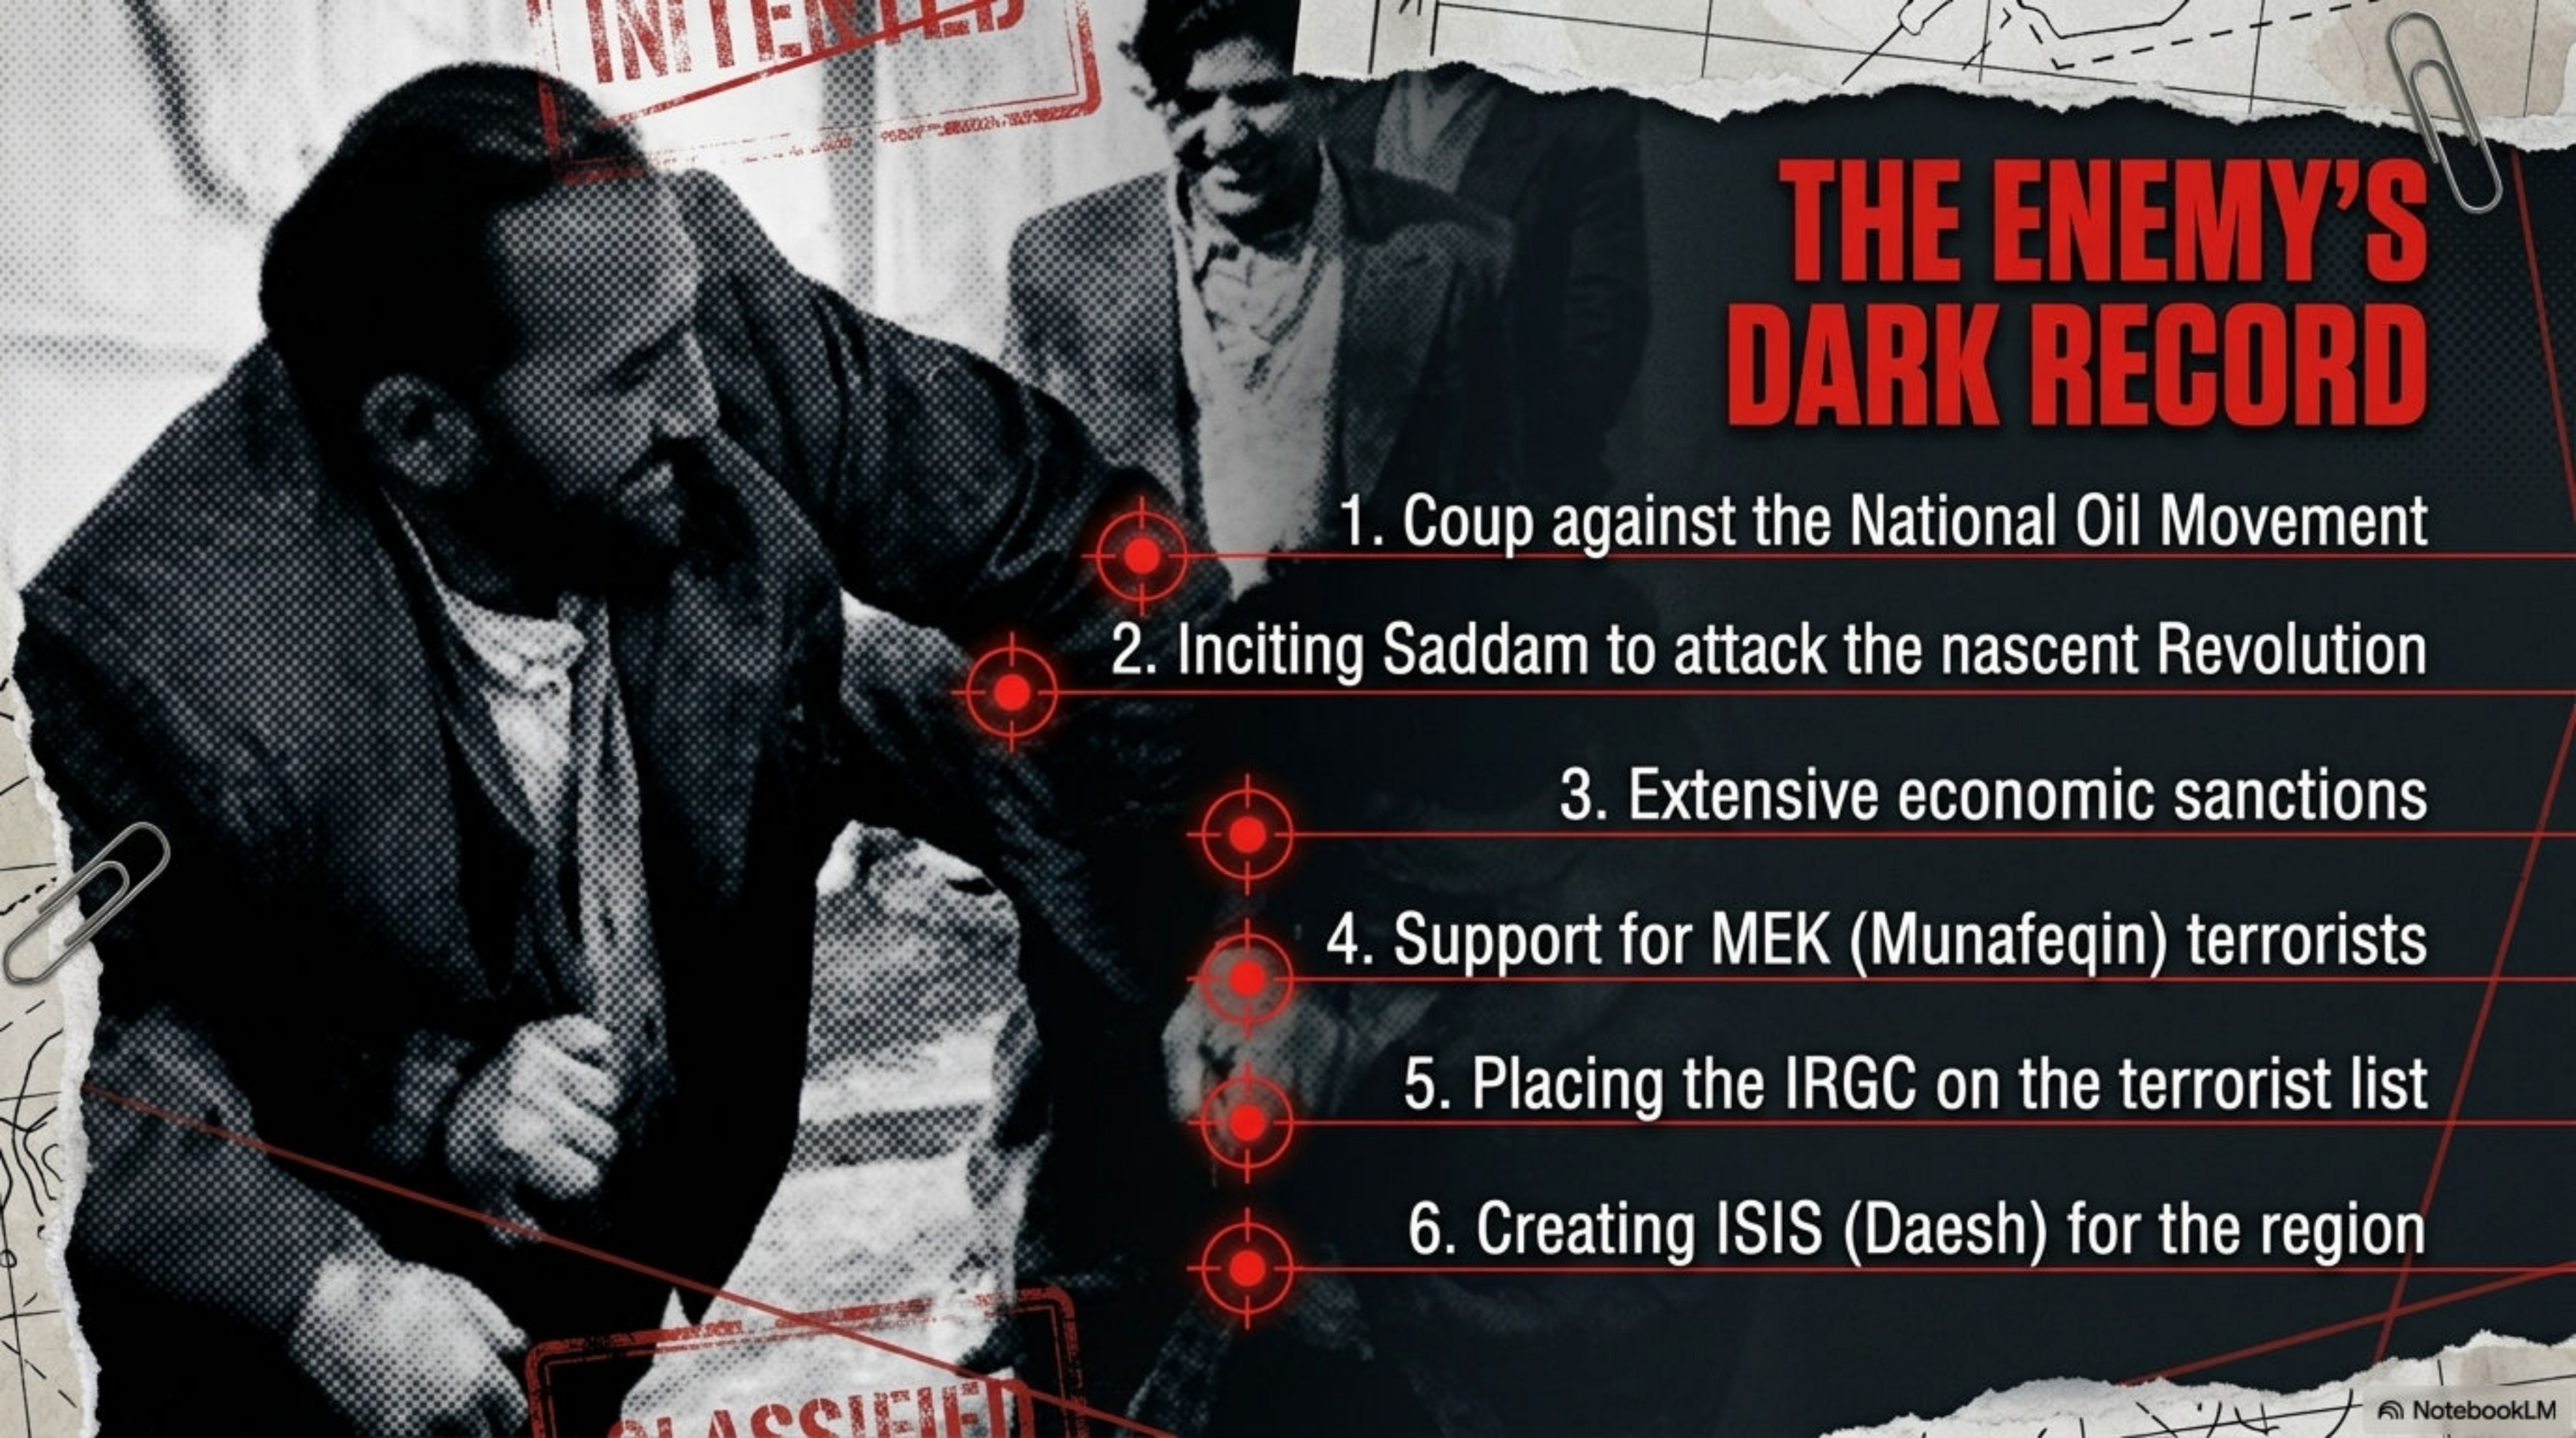

From **Venezuela** to **Iraq**, America's footprints can be seen wherever there is "**energy**." Oliver Stone's film '**W**' clearly demonstrates why America attacked Iraq: **Domination over the world's energy**. It is no coincidence that the name of the **US Department of Defense** was changed to the **Department of War**, but the essence of its evil remains exactly the same.

Roots of Evil

This colonial temper and disposition is rooted deep in the history of America's formation; occupiers who left England and destroyed the natives.

It is the exact same mindset that launched World Wars and wounded the Middle East by creating the Zionist regime. All of this is orchestrated by the British.

THE ENEMY'S DARK RECORD

1. Coup against the National Oil Movement
2. Inciting Saddam to attack the nascent Revolution
3. Extensive economic sanctions
4. Support for MEK (Munafeqin) terrorists
5. Placing the IRGC on the terrorist list
6. Creating ISIS (Daesh) for the region

WHY DIDN'T HISTORY REPEAT?

In 1953 (1332) they succeeded, but in 2026 (1404) they failed. The difference was "**National Awareness.**"

The people's widespread support on 22 Bahman and their massive presence disrupted the enemy's calculations to reduce social capital—stopping their war machine before it was even turned on.

End of Operations? Never.

Their design is currently facing failure, but they insist on continuing this story.

America and England never like those who protect the interests of nations—from Gandhi to Mosaddegh to the Shia clergy.

Awareness is our only weapon.
